

HRIDASHA JOSHI

SOFTWARE & AI/ML ENGINEER

+91 8849279020

hridashajoshi@gmail.com

8, Trimurti Society, Gulbai Tekra, Ahmedabad-380015.

PROFESSIONAL SUMMARY

AI/ML Engineer specializing in building production-ready AI solutions across Generative AI and Computer Vision. Experienced in developing LLM-based applications using RAG for intelligent data retrieval and response generation, along with real-time computer vision systems. Skilled in Python, TensorFlow, PyTorch, Django and FastAPI, with a strong focus on scalable and high-performance AI systems.

PROFESSIONAL EXPERIENCE:

Software Engineer – Python & AI/ML
Sigma Solve Inc., Ahmedabad

Apr 2025 – Present (Full-time)

- Developed and maintained Python-based backend applications and AI/ML solutions for real-world business use cases.
- Designed and implemented end-to-end ML, LLM, and Computer Vision pipelines using OpenCV, TensorFlow, and PyTorch, including building and integrating LLM-based applications such as RAG (Retrieval-Augmented Generation) systems for intelligent data retrieval and response generation.
- Worked on real-time inference workflows and optimized model performance for speed and accuracy.

Python Developer (Trainee)
Sigma Solve, Inc., Ahmedabad

Jan 2025 – Apr 2025

- Developed a Yoga Correction System using Django and computer vision under guidance.
- System recognized and guided multiple yoga poses with real-time feedback.
- Gained hands-on experience in Python, Django, and computer vision workflows.

Odoo Intern
BeyonData Solutions Pvt. Ltd., Ahmedabad

May 2023 – Aug 2023

- Developed and customized Odoo modules using Python for ERP solutions.
- Assisted in backend development, data handling, and system configuration.
- Gained practical exposure to ERP workflows and client-driven development.

PROJECTS:

- **MoodyTunes(Python/Django):** It is a python based music web application which can detect your emotion through web cam and can suggest songs according to your detected mood
 - **RTO Monitoring System(Java, MySQL):** RTO monitoring system built in java and MySQL database with the functionality of login system and user can keep track of their documents in the RTO office
 - **Library Management System (Python/Odoo):** Customized an Odoo-based Library Management System, optimizing cataloging and borrowing processes for efficient resource management. Personalized Odoo modules using Python to improve library operations.
 - **Yoga Correction System (Python/OpenCV):** Developed a real-time yoga guidance system capable of recognizing and correcting 35 yoga poses, providing speech guidance to improve user posture.
-

TECHNICAL SKILLS:

- **Backend & APIs:** FastAPI, Django, REST APIs
 - **Data Analysis & Visualization:** Pandas, NumPy, Seaborn, Matplotlib
 - **Artificial Intelligence / Machine Learning:** Machine Learning, Deep Learning, Image Segmentation, Computer Vision, Real-time Video Processing, NLP, Model Training, Evaluation, Optimization & Inference, Feature Engineering, Data Preprocessing
 - **Generative AI / LLMs:** LangChain, LangServe, RAG, Prompt Engineering, LlamaIndex, LangGraph
 - **Automation & ERP:** Python Automation, Crawlee, Web Scraping, Odoo
 - **Databases:** SQL, MongoDB, PostgreSQL
 - **Messaging & DevOps:** RabbitMQ, Docker, Git, Jenkins
 - **Soft Skills :** Communication, Problem Solving, Time Management, Teamwork
-

EDUCATION QUALIFICATION:

B.Tech at Ganpat University ICT | Ahmedabad

2022 - 2025

Ganpat University

8.22 CGPA

**Diploma at Alpha College Of Engineering
And Technology | Gandhinagar**

2019-2022

Gujarat Technological University

9.62 CGPA
